Sharing Capabilities
(Desktop, Documents,
Single Application)

Mobile Ready

Give your customers a Personal Advisor or let them see your experts presence. Arrange virtual meeting with state of the art collaboration tools.

Eudata collaboration Suite

Desktop sharing: Desktop or Area Sharing: permits to share the entire desktop or a specific portion of it. It works both from agent/expert to customer and viceversa

Application Sharing: Enable agent/expert or customer to share in real time a specific application (Word, pdf, Excel, ...)

Send web link or document from agent/expert to the customer or viceversa. The document or link will be automatically managed inside the browser

Mobile ReadySDK: using our SDK, also the Collaboration Suite is customizable based on UX/functional requirements, in order to fit your customer's needs

Grazie
